Overlap   X17922_en

Write a string function *max_overlap*(*s*, *t*) that given two strings *s* and *t* returns the longest string that is a common prefix of *s* and *t*.

Sample session

```
>>> max_overlap('bugs', 'bunny')
'bu'
>>> max_overlap('winter', 'winner')
'win'
>>> max_overlap('hand', 'made')
''
>>> max_overlap('x', 'x')
'x'
```
