Ice Cream   X68507_en

My friends offer me several things to eat, but the only thing I want is ice cream.

Input

The input starts with an integer *N*. On the next lines are *N* items of food that my friends offer to me.

Output

For each item of food, if the food is ice cream, write the following on a single line:

I like ice cream!

Otherwise, if the food is X ≠ ice cream, write the following on a single line:

I don't like X.

Sample input

```
5
ice cream
peanut butter
chocolate cookie
ice cream
candy
```

Sample output

```
I like ice cream!
I don't like peanut butter.
I don't like chocolate cookie.
I like ice cream!
I don't like candy.
```
